

P1: identical exception task, paired supervision weights at 512 steps

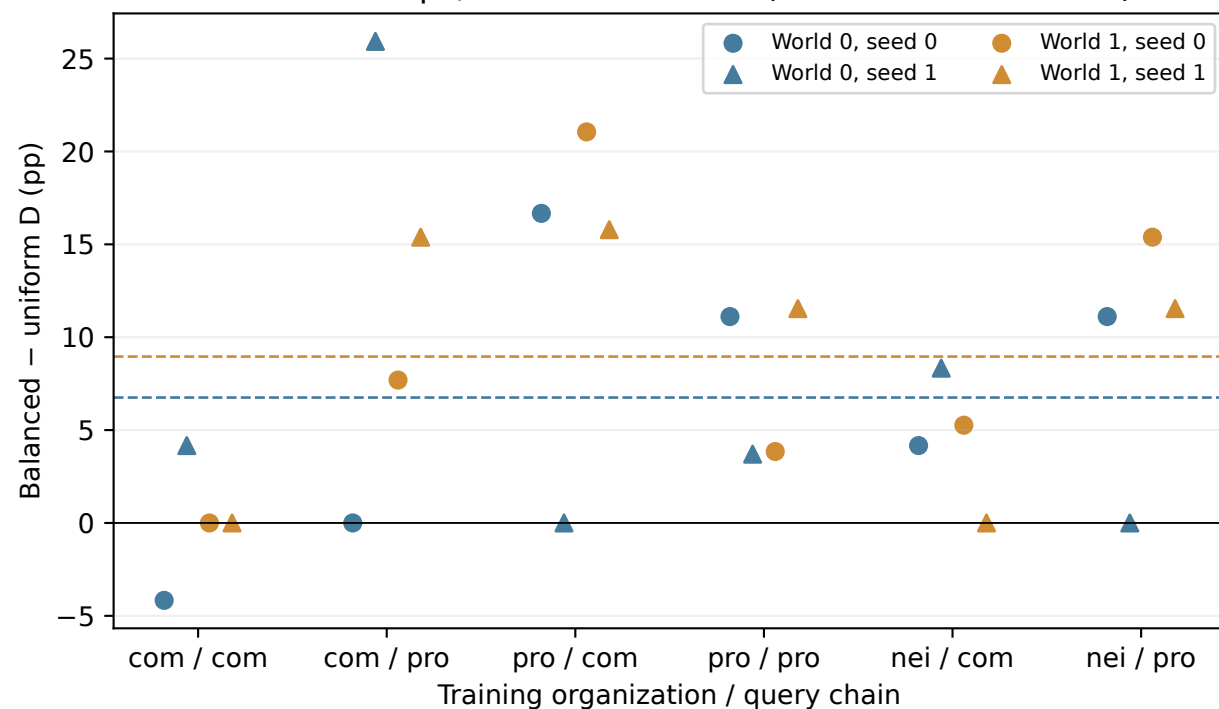

Width 256: all 24 paired outcomes; E root / actual = 100%

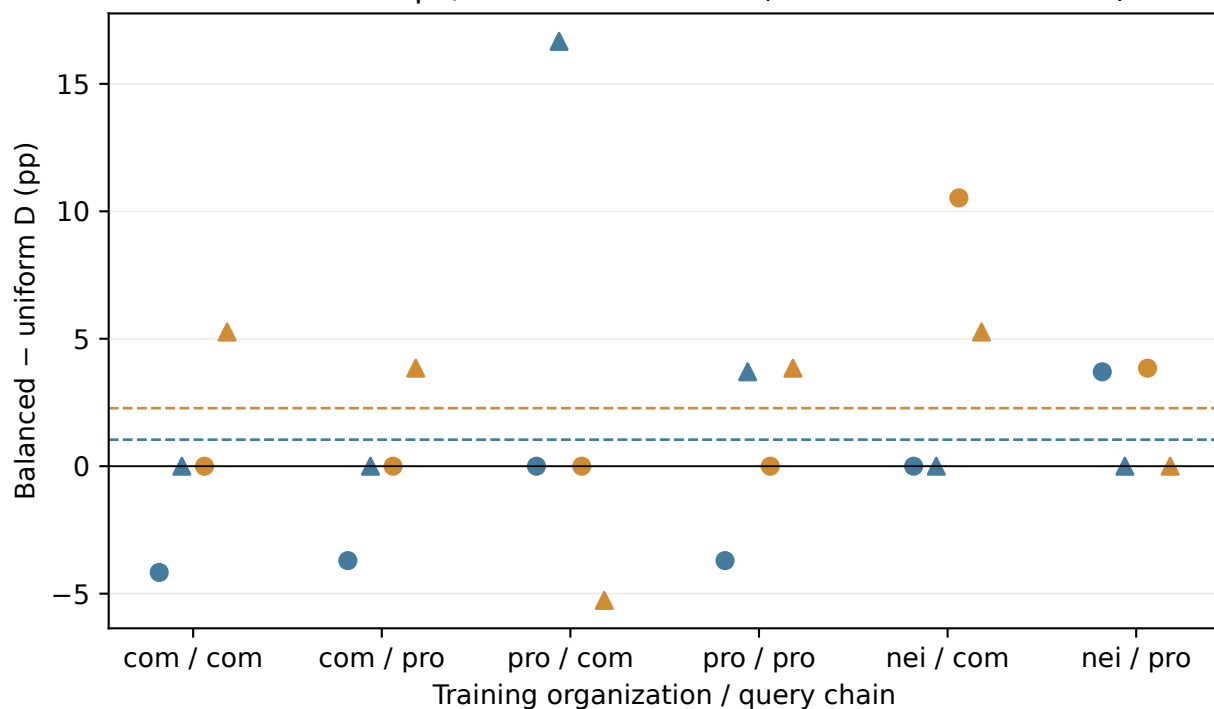

Width 768: all 24 paired outcomes; E root / actual = 100%

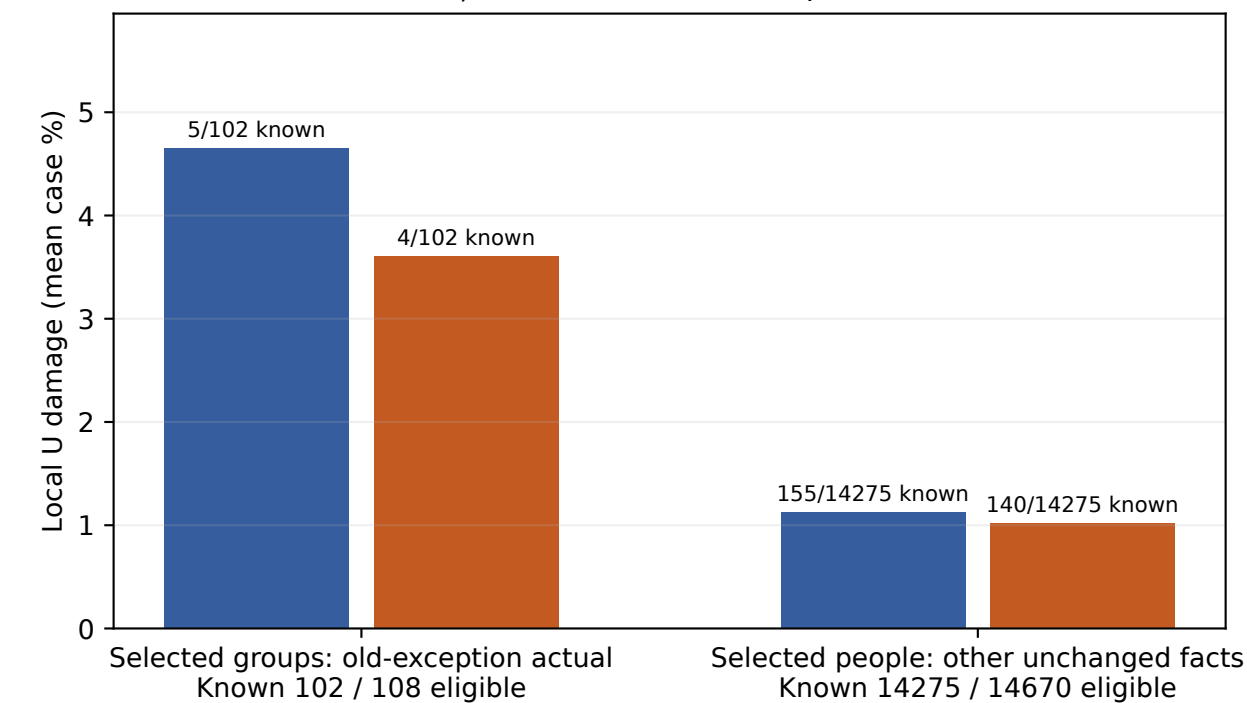

Fixed 512 steps; no case selection (dashed: world means)

Fixed 512 steps; no case selection (dashed: world means)

Local retention; labels retain broken / old-correct counts
